**You have added the relevant skills.** 100 👍

- Includes title, description, languages, skills, Education, and certifications sections. 🍷

No need to mention the original country of residence, the project owner wants to know your current resident area to count the difference in timezones

**You have added the original country.** 100 👍

- This is always important to add, as project owners would be well informed of the time zone difference before considering giving you the project. 🍷

Start with \$5-10/hr as a beginner freelancer, the more you complete gigs and gain more experience, the more you can ask for your hourly rate in the future

**You have added the hourly rate.** 100 👍

- You can start with a low rate and increase it when you have gained confidence and also good reviews from the clients.

## Projects proposal

Copy and paste your proposals into the second Word file. Don't add a link that redirects to your marketplace submission. Udacity reviewers won't be able to see your submission

**The proposals were copy and pasted into another Word file.** 🍷

Correct example: Dear john  
Incorrect examples: Dear sir/madam, Dear XXXX

**Start with a custom greeting** 100 🍷

- Starting the proposal with the name of the client is considered professional, and it creates that personalized touch that will help your proposal stand out.

A quick introduction that doesn't takes no longer than 3 lines

**Make a connection with the client** 100 🍷

- By introducing yourself, share details about why the job interests you and ask questions that demonstrate your knowledge.

1. List all relevant and similar projects you worked before
2. Don't list all of your work experience

Great job listing the relevant projects you worked before 100 🍷

1. Steps to be mentioned in bullet points not in a paragraph
2. The project implementation model must follow the project owner's timeline

Great job listing your Steps in bullet points, making your vision clear toward completing the task 100 🍷

1. The proposal must contain the bidding amount
2. The student must be reasonable while setting his/her bidding amount

Great job listing your Steps in bullet points, making your vision clear toward completing the task 100 🍷
